QABA PURPOSE

The purpose of the Qualified Applied Behavior Analysis Credentialing Board is to ensure the competency of professionals who provide therapeutic intervention for individuals with autism spectrum disorders and related disabilities. Through credentialing, the Qualified Applied Behavior Analysis Credentialing Board strives to be the standard-bearer for providers at all levels of applied behavior analysis. Additionally, our goal is to improve coordination among providers, families, and insurers to establish seamless delivery of effective therapeutic services.

QABA VALUES

We uphold the highest standards of effective behavioral interventions by adhering to our core values:

- To work with a spirit of cooperation and collaboration, appreciating diversity among all stakeholders;
- To act ethically and honestly toward our certificants, colleagues and community;
- To uphold quality and excellence in service to our professionals;
- To improve the lives of individuals with ASD (autism spectrum disorder) and related disabilities by increasing the availability of qualified behavioral analysts.

ABAT CREDENTIAL

The ABAT credential certifies that certificants have demonstrated entry-level (ABAT) knowledge, skill, and their competency in autism and applied behavior analysis (ABA) has been thoroughly assessed. The entry-level ABAT provides behavioral health services under the supervision of a licensed or certified professional, including QASP-Ss and QBAs, or licensed psychologists who are working within the scope of applied behavior analysis.

Ongoing Supervision Requirements

Each Applied Behavior Analysis Technician (ABAT) is required to meet with his or her supervisor for 5% of the time they provide behavior analytic services every 3-month period. Supervision can be done remotely, using a HIPAA compliant video conferencing program; however, one session must be one-to-one in person for a minimum of 1 hour. 50% of supervision hours may occur in a group setting.

Supervision must be documented using the QABA supervision log and verification forms located on the QABA website (qababoard.com).

Supervision must be validated and completed by valid and qualified supervisor.

Valid Supervisors:

- QBA
- QASP-S
- BCBA/BCBA-D
- BCaBA
- An individual who is licensed or certified in another health profession, including behavior analysis, who is practicing within the scope of the competency of their license/certificate.

If the in-person supervision requirement places a hardship on the service provider or supervisor, or jeopardizes the provision of services, contact info@qababoard.com to request a variance of this requirement. All variances are reviewed by the QABA Board for approval.

Examination

Once all coursework, recommendations, and agreements have been completed and verified, exam access will be provided through a password-protected system. If necessary, fieldwork may be completed after taking the examination, but the credential will not be awarded until the fieldwork requirement is satisfied. Once credentialed and QABA Board approved, the candidate's name is listed on the QABA Board's website public registry.

The ABAT must complete 15 hours of fieldwork. Supervisors must verify 1 (one) hour of supervision for every 10 hours of independent supervised fieldwork. Supervision must be documented using the QABA supervision log and verification form located on the QABA website (qababoard.com).

EXAM PROCESS

Online testing is convenient and allows for a quiet and easy examination experience. Please read all of the testing rules and requirements beforehand to ensure that the entire process goes smoothly. The exam is live-proctored by our independent partner Examity® to ensure that the online test is fair and valid.

Examity's software works on most modern desktop or laptop computers (Chromebooks and tablets are not compatible) with a webcam and microphone. A secure and high-speed internet connection is vital to exam navigation. There will be a speed test prior to the exam to check the candidate's technology.

The ABAT examination consists of 125 questions. It is important to answer all 125 questions to the best of your ability. 100 of the questions are live and scored, while 25 of the questions will not be scored. There is no indication which questions are not scored, so it is very important to answer all 125 questions to the best of your ability. (Up to 25 pretest questions may appear on the test as part of future item development. These pretest questions are not scored.)

After the exam, candidates immediately receive a pass or fail score. After QABA has reviewed the video and validated the passing score, the candidate will receive a congratulatory email with a request to complete a brief

survey in order to give QABA feedback regarding the test and exam process. Once the survey is submitted, a certificate will be unlocked under the enrollment application and accessible for printing. Passing candidates' names are forwarded to the QABA Board for formal ratification, and are then added to the public registry on qababoard.com.

Candidates who fail the test are given 24 hours to set a new exam date after paying the exam retake fee. (See Exam Retake Policy for requirements)

 - C. Fraud, falsification, or misrepresentation of qualifications or candidacy, renewals applications, or regulated policy rules of QABA

NOTE: Every effort to resolve employee/employer/supervisor issues should be made through supervision and employer channels PRIOR to filing a complaint. The only ethical issues that should be referred to the board are those that affect credentialing and maintenance of a credential.

IMPORTANT: Complaints should not be filed until all corroborating evidence is available and/or other investigations are complete including, but not limited to, on-going written internal discipline counseling documents (signed by both parties), employer or other agency investigations and dispositions of those investigations, corroborating complaints from other witnesses, etc.

- A. Preliminary Review: All complaints are reviewed by the board president and secretary. Preliminary review is completed within 5 business days.

1. The complaint is determined to:
 - a. Be substantial and contain valid and sufficient information to justify a discipline committee review
 - b. Be insufficient and returned for further information; or, dismissed as not qualifying as an ethics/policy violation
 - c. Be more appropriate for administrative resolution through the QABA office

2. Disciplinary Committee Review: A valid and substantial complaint is investigated by a Disciplinary Review Committee (DRC) comprised of the board president, secretary and one additional board member. The committee forwards a report and recommendation to the QABA Board upon completion of all relevant investigation materials.
 - a. Notification is made within 5 days of substantiated review to the certificant or provider whose conduct is in question. Email, phone and/or written correspondence and all contacts are documented in a written log of all data. If the recipient does not respond within 5 business days, a certified letter is issued. The respondent has 15 days upon receipt to respond. All participants and providers are responsible for maintaining current and correct information in the QABA system. Incorrect or out-of-date information is not the responsibility of the QABA Board; however, every effort will be made to contact all parties. Failure to respond within 15 days will result in automatic suspension of the certificate. During suspension, individuals cannot represent, provide services nor bill services utilizing the credential. Employers will be immediately notified upon suspension. Further failure within an additional 15 days to respond to a suspension notice will result in revocation following a board vote and notification to the employer. Reinstatement may be requested in writing up to 30 days following the revocation to the QABA Board President, along with thorough justification and data to support the reinstatement. The investigation timeline procedures will continue at that time.
 - b. Employers, employees, or related parties to any complaint may be contacted to substantiate information.

- B. Board Review: All complaints forwarded by the DRC are reviewed by a quorum of QABA Board members.
 1. Determination is made upon completion of all investigation materials and reports. Final determination is not completed until all legal processes are fulfilled, if applicable. Final determinations for certificates or provider status may result in the following:
 - a. Caution/warning along with counseling
 - b. Code compliance or training through voluntary professional development
 - c. Suspension for a specific period of time or until completion of specific training, supervision, or code/policy correction is made
 - d. Revocation: the participant or provider is immediately removed from active status and their certificate is listed as revoked after the appeals process
 - e. Dismissal: after thorough investigation, the board concludes that the complaint is unsubstantiated based on evidence provided
 - f. Voluntary surrender of certificate or provider status: if completed before the final determination, the file is sealed and the certificate or provider is removed from the roster without comment

2. Determination results/sanctions are provided to the respondent or provider through written notice within 5 business days of final board quorum vote. Revocation of the credential is permanent and certificants and providers may not re-apply.
3. Complainants are notified in writing of the results of their filed complaint.

IV. **Appeals Process:** Appeals may be filed to the QABA Board within 90 days of receipt of the board’s determination. A request to begin an appeal must be made in writing to the board president; however, **all pertinent documentation is not required in order to begin the appeals process.** The Appeals Committee (AC) is comprised of 2 board members who were not on the Disciplinary Review Committee (DRC) for the case, and at least one QABA Advisory Board member who has no association with the provider nor the employer of the respondent/provider. Respondents have the right to attend in person or via video conference with the committee and may include their own legal counsel. The timeline to finalize an appeal will vary; some appeals may resolve within weeks, while others may take longer depending upon documentation availability, legal proceedings, and depth of required investigation.

INTRODUCTION

The QABA Ethical Code of Conduct applies to all credentialed providers, applicants and approved CE providers. In keeping with our QABA mission to establish the highest standard of care and to empower all professionals who provide behavior intervention services to individuals with autism spectrum disorders and related disorders, our Ethical Code of Conduct is intended to provide guidance for certified professionals and their employers as to standards of conduct within the field of professional behavior analysis. The goal is to provide a framework that will promote ethical behavior and enhance professional judgment. The Ethical Code of Conduct is necessary to ensure professionals take the reasonable steps to safeguard: the client’s welfare and rights, a standard of care and treatment, professional conduct, supervision, conflict resolution, appropriate training/research and other applicable professional responsibilities. If the Ethical Code of Conduct does not directly resolve an ethical dilemma, the certificant is to consult and determine what the prevailing decision would be with other professionals engaging in a similar capacity and/or activity. The Ethical Code of Conduct addresses ethics for all levels of certificants and applicants. Though some codes may relate to a specific certificate, the ethical standards are a comprehensive and universal guideline for the professional field and the responsibility of all levels of professional development.

1.0 COMPLIANCE

1.1 Adherence to Code of Ethics

- a. Certificants dedicate themselves to read, understand, and utilize the Ethical Code of Conduct as a standard of care. Lack of knowledge of the code of conduct does not excuse accountability.

b. Certificants recognize a duty to adhere to all laws, rules and regulations, policies and ethical standards that apply to the practice of applied behavior analysis.

c. Certificants follow the ethical codes and supervision standards as required by other additional licenses, certifications, or memberships held. They abide by pertinent laws, institutional rules, or professional behavior standards within their provision of service.

1.2 Ethical Responsibility

a. If certificants are aware of any Code of Ethics violation by a fellow certificant, they are responsible for informing the certificant of the violation. If the unethical conduct continues, the certificant will report the violation to the QABA board. Awareness of any violation by a fellow certificant that involves neglect, endangerment, safety, or legal consequences should be reported to the QABA board immediately and to local authorities. Any certificants under professional/employer investigations or facing legal charges should report to the QABA board within three business days of becoming aware of the investigations and/or charges.

1.3 Ethical Dilemmas

Concern over adherence to professional standards and/or compliance with the QABA Ethical Code of Conduct will be reported to a supervisor/leadership within the scope of service. When in doubt, it is best to review the code of conduct and utilize supervision relationships for further discussion.

Discussion of individual situations provides learning experiences for all professionals and ensures integrity of the profession.

Certificants maintain competence through continuing education requirements and will self-initiate any additional training and education to provide the highest level of best practice standards of the field.

2.3 Integrity
